— *Confronting Inequity* —

Join us on the evening of **May 10** at ASCD's fifth **Whole Child Symposium** for a conversation about equity in education spanning issues of race, economics, culture, gender, and more. **Equity** has been understood to be both a key driver of school improvement as well as a major factor in ensuring that each child is able to achieve and succeed, yet our systems and societies still harbor inequities. This forum, hosted for educators and by educators to discuss today's most pressing education issues, will feature a diverse group of panelists who will address some of the various factors that should be considered when working toward equity in education.

Attend the event in person in Washington, DC, or stream it live to your school and staff. Participants, both in person and online, can ask questions, debate issues, and suggest solutions throughout the discussion on Twitter.
